kumar.vikrant@outlook.com

I am a self-driven and passionate designer. A background in architecture molded me well to fit the role of a user experience designer. Due to my previous roles, I am proficient in key skills such as understanding user needs, applying design principles, coordinating with various stakeholders, technical knowhow and switching between different scales. I am looking to improve my knowledge and skills and make my mark creating industry-leading and online communities as a UX Designer.

Skills

Usability evaluation, User interviews, Affinity diagramming, Design thinking, Qualitative and Quantitative analysis, Wireframing, Rapid prototyping, High fidelity prototyping, Usability testing.

Tools

Figma, Microsoft office, Python.
Adobe - Photoshop, Illustrator, Indesign, After effects, Premiere. Sketch-up, Lumion, Rhino+Grasshopper, Autocad, Revit.

Certification

Interaction Design

Specialization / University of San Diego. (on Coursera)

GRIHA Evaluator (Green building rating system in India)
